

Adding a Google Slides presentation to a class web page

1. In a Google Slides presentation, **click on the File menu** and **choose Publish to the Web**.
2. On the dialog box that appears, **click on the Embed tab**. (Recommendation: Choose one minute on the Auto-Advance dropdown option).
3. **Click the Publish button**. Another window will appear asking if you want to publish. Choose OK.
4. **Press Control + C** on your keyboard to copy the embed code that appears.

5. **Go the class web page**. Scroll to the bottom of the page and **click Login**.

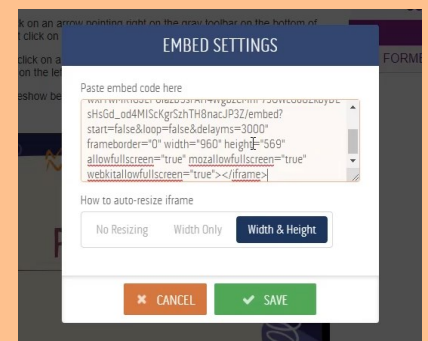

6. Move your mouse over the embedded Google Slides presentation on the page. **Click on the gear icon** on the top right corner.

7. **Delete the old embed code**. Press **Control + V** on the keyboard to paste the new embed code.

8. **Click the Publish** button on the bottom of the web page.
